

Comfort • Quality • Reliability

Specialists in Adjustable Electric Beds

COMPANY PROFILE

With over 25 years experience in manufacturing quality beds, Bodyease, a family owned business prides itself in taking a holistic approach to bed making – right from purchasing the quality raw materials, to the finished product. Our Leather beds and wooden beds are crafted from the best materials we can source globally, so they add effortless and long lasting beauty to any bedroom.

With changing demands of a variety of quality beds, we have been in the forefront of innovative developments. With this vision in mind, we are now making our mark in marketing quality beds and specialising in adjustable beds, pocket sprung beds, and contemporary beds.

With the ever-growing market in adjustable beds, we are one of a few who have introduced this to our customers old and new. To ensure quality is assured, we use branded names, such as latex, memory foams and reflex in a variety of our models. It is through our constant communication with our customers and seeking advice from them that we bring new ideas into fruition. We strive to ensure that the customer is satisfied and put quality on top of our agenda.

Our company not only provides a quality product but also a quality service with a weekly delivery service, to most of our customers in the UK mainland.

The Luxury Motion Collection

The Bodyease Collection

Bodysleep Healthcare Collection

The Luxury Motion Collection

At Bodyease we understand that the third of your life spent in bed is the foundation for the two thirds you spend awake. Good nights lead to good days, To get up every day feeling refreshed, you need a bed that offers correct support. Without it, muscles tire and your REM sleep - the most restorative part of your sleep cycle - is disrupted as you shift to relieve pressure points This exclusive Collection ensures the perfect bed for every client.

The rise in popularity of power-assisted beds is quite astonishing. It's no secret that people love technology and gadgets that improve their day-to-day lives, so naturally the modern consumer seems to really engage with the concept of being able to adjust their bed to their optimum sleeping position at the touch of a button.

We combined more than 25years of industry and bed design experience to create The luxury motion collection and we pride ourselves to innovate and bring well-designed, highly functional products to the market.

ELECTRO PRESSURE RELIEVER

The Pressure Reliever Adjustable bed is designed to give you lasting support and comfort night after night.

A mattress that reduces pressure! Combining the essential materials, memory foam and reflex, the Pressure Reliever provides a superior and consistent support to suit everyone.

The memory foam has desirable qualities of being both energy absorbing and temperature sensitive. The memory foam responds to natural body heat and moulds to your body shape to give you all the support you require. The memory foam will spread the weight so you are subject to the least possible pressure when sleeping providing comfort and relief to joints and muscles. Therefore a choice ensuring everyone is comfortable with total support where it is needed the most.

- Functionable in every height position.
- Standardised for hoist utilisation.
- Contemporary wooden covering.
- Manufacturing in accordance with MPG.

Patient Weight

Supported Maximum Weight = 125kg

MATTRESS OPTIONS

Latex Mattress

Latex foam mattresses are a fairly new design on the market and are starting to be more popular because of their excellent quality and good levels of comfort. They are presumed to be the next popular style of mattresses available and similar to memory foam mattresses they are now more popular and widely available.

Latex foam mattresses have excellent heat reduction and breathable properties, which are more efficient than any other type of foam. This allows the mattress to breathe and keep fresh. Latex is a natural product that is very useful for mattresses, as it is hypo allergenic and anti microbial, which prevents dust, mould and bacteria from settling in the mattress.

Memory Foam Mattress

Memory foam has a unique open cell structure that reacts and responds to body heat and weight by moulding to the contours of your body, therefore optimizing the support it can give you by almost eliminating all pressure points your body is usually subjected to.

It is the most effective material for relieving pressure points and used for prevention of pressure sores and has multiple orthopaedic and other health benefits making a huge difference to your quality of sleep.

Reflex Mattress

Luxurious Reflex mattress, ribbed carefully to work in harmony with your body.

The Completely Filler-Free Reflex, achieves the most outstanding levels of performance, shape retention and long term durability. Its unique construction ensures excellent mattress ventilation.

Pocket Sprung Mattress

Pocket sprung mattresses are one of the most comfortable mattresses with an effective design that provides high levels of comfort and support where it's needed most.

They are designed to contour with your body and are constructed of numerous individual springs that move independently, giving an exceptional amount of support and cushioning.

A pocket sprung mattress uses these individual springs to respond to everyone's individual body weight, increasing their usability and comfort.

Open Coil Mattress

Open Coil Mattress are one of the most common mattresses currently on the market and are popular because of their reputation as comfortable and affordable, offering versatile all over body support.

Open coil mattresses are designed with open coil units in the mattress padding that provide optimum levels of comfort. In horizontal or vertical rows, these individual coils are jointed together in rows to create the mattress. Available in a variety of styles Open coil mattresses come with all different types of fillings and upholstery's depending upon your preference.

5 Point Massage System

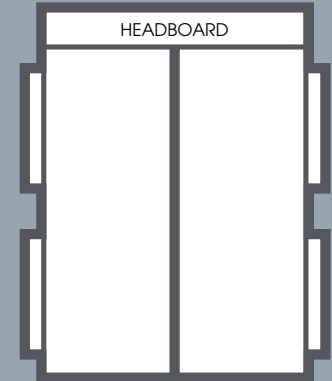

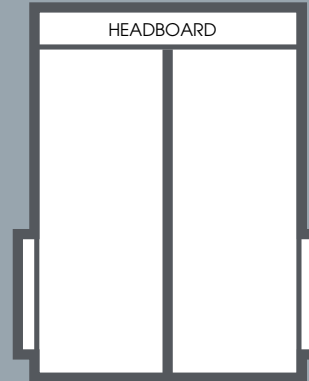

The Relaxor Massage System allows at your fingertips either a full sensual body massage or a concentrated massage on one of five specific areas of the body.

(Available in foam mattresses only)
